

Many of you are aware that speeding has been an issue on Mecklenburg Ave. After receiving several resident complaints we began meeting with neighbors and CDOT to discuss ways to slow traffic between The Plaza and Country Club Road.

The proposed solution calls for a Traffic Circle at the intersection of Fort/Lynhaven & Mecklenburg and a Traffic Impeller at the intersections of Norcross/ Daniel and Mecklenburg. The intent of these devices is to slow traffic without adding “stops” or “humps” (see graphic on other side).

You are receiving this because your property is within the “Impact Zone” and we’d like to hear your thoughts on the proposed changes. While most people support this proposal it is by no means a “done deal” and CDOT wants our input.

More information is available under the Neighborhood Watch menu item on www.plazamidwood.org, click on Pedestrian and Traffic Management.

Please join us for a COMMUNITY MEETING:

WHAT: Traffic Calming Community Meeting with CDOT

WHERE: Fellowship Hall, Midwood Baptist Church, 2029 Mecklenburg Ave.

WHEN: Thursday July 21st at 7pm.
